Unique Benefits of CIBC Axiom Portfolios

Professional Portfolio Management: CIBC Axiom Portfolios provide access to the accumulated knowledge and expertise of professional managers from around the world.

Rigorous Due Diligence: The investment managers for CIBC Axiom Portfolios are carefully selected and monitored by the CAMI Investment Management Services due diligence team. The team adheres to a stringent due diligence process to ensure that proven investment managers for each mandate are selected and that the managers continue to meet their stated investment objectives.

Built-in Rebalancing: CIBC Axiom Portfolios are rebalanced on an ongoing basis to prevent overexposure or underexposure to any one asset class. CIBC Axiom Portfolios are designed to maximize your potential for return, while staying within your risk tolerance level.

The volatility is classified based on the IFIC (The Investment Funds Institute of Canada) recommendations for fund managers regarding fund volatility. The volatility of the portfolio is classified as “average” if the variability of returns, as measured by the average three-year rolling standard deviation, is between 11% and 16%.
